From Mort Mendel

Subject PURCHASE ORDER 4343 - HI-RANGER BUCKET TRUCK (DEMONSTRATOR)

COPIES TO:

Attached is requisition and purchase order for procurement of a 35' aerial unit bucket truck which we have had on demonstration use from Mobile Aerial Towers for approximately 2½ months.

Even though our Electric Utility is in process of Lease implementation to Indiana & Michigan Company, we urge Council and Board approval of this purchase in order that we may carry on adequate service in our customer service area during the upcoming summer months.

The Electric Utility has had two small 28' bucket trucks in service with our Light Service Department . . . one is in constant use in changing street light fixtures, and another is used for service calls.

Our Light Construction has had one large 65' bucket truck, used primarily for working hi-line, and a ladder truck which has been used to work distribution and for installing the new concrete street lighting poles (which cannot be climbed). In addition, Light Construction has one 48' bucket truck which is constantly in use by the tree trimming crew.

In recent months, the ladder truck has been placed out of service due to an unsafe condition which has developed, wherein the truck chassis tips whenever the ladder boom is used over the side of the truck. This is a hydraulic ladder, chain driven, and was really not intended for use at right angles to the truck. To make this unit safe would involve a bandaid approach using out-riggers.

The demonstrator model which we are recommending be purchased would normally cost \$20,000 or more. Mobile Aerial Towers will warranty the unit power portion the same as if it was new.

We also plan to recover a sizeable portion of the cost of this unit upon consummation of our Lease execution with Indiana & Michigan, according to terms of the Lease relating to purchase of transportation equipment.

Because it is essential that we have adequate aerial equipment for servicing our transmission and distribution system during the upcoming summer months, we recommend taking advantage of the opportunity to purchase this demonstrator unit at a very good price. If you have further questions, please call me.
